Residence Phone 28

## A Letter To The Paper

For the last seven years I have become very well acquainted with a Mr. Mason who formerly lived at Champion known as "Ted", and as most communities like to learn about their former residents I have asked him many times to write to you.

Mr. Mason has a daughter who was born at Champion and it is about this girl that you may be interested.

Four years ago this girl commenced to take violin lessons and progressed so fast that in less than a year she had to be transferred to a more advanced teacher. After taking lessons for two years she was entered in the King County Music Contest competing against people of all ages, and won a Gold Medal which was the highest award given.

A year ago this month she was asked to give a concert by the Kiwanis Club and did so in the Women's Century Theatre in Seattle, where she played a concert lasting for over three hours, accompanied by a symphony orchestra composed of 30 musicians. All of this program she played entirely from memory.

The "Seattle Star" a Seattle newspaper runs a column about outstanding people occasionally, and on May 18 under column headed "Flowers for the Living" the article was devoted to this girl. She attends James Monroe Junior High School where there are over 1600 pupils and on the day that the article appeared in the newspaper a special assembly was called at school and a magnificent bouquet of flowers presented to her before the whole school.

This girl has had feature articles and her picture published in all the local newspapers.

She has been heard play by all authorities on music in the State and has been unanimously pronounced the outstanding musician ever developed in this district and a child who will undoubtedly become a renowned concert artist.

Mr. Mason resides at 7315 Eighth Ave. N. W. Seattle, and

my only object in writing is to let you know what former residents are doing.

Alec P'yer.

## Voisey Home Scene Of Delightful Affair

The tea held at Mrs. Voisey's charming home on Friday, May 22nd, by Mrs. Dawson's group of the Ladies Aid was a great success. Many ladies from Champion took advantage of the opportunity for a pleasant drive, and the attendance of Mrs. Voisey's neighbors attested her popularity as a hostess. Over sixty guests were served delicious refreshments, the ice cream provided by the hostess proving a particular treat. The results of the silver collection (\$16.25) were very gratifying.

A musical program, presented in the living room during the afternoon consisted of piano solos by Misses Marjorie McCullough, Evelyn Sletto, Lillian O'reatt, Anna Caroline Baker and Mrs. J. Walker; solos by Misses Dorothy Hummel, Betty Ashmore and Caroline Baker, a duet by Misses Moring McDougall and Lillian O'reatt; a vocal trio by Phyllis Ashmore, Betty Ashmore, and Caroline Baker, and recitations by Fern Davies and Phyllis Ashmore.

The ladies wish publicly to express their appreciation of Mrs. Voisey's kindness in opening her home for such a pleasant occasion.

## Announcement

Mr. and Mrs. J. Howard Bastin announce the engagement of their third daughter, Phyllis Vivien, to Mr. John Albert Kulpas of Champion, eldest son of Mr. Anthony Kulpas of San Diego, Calif., formerly of Barons, Alberta. The marriage will be solemnized the latter part of June.

In spite of the rain last Wednesday there was a good attendance at both matinee and evening showing of "Curly Top."

## 90 lb. Steel Drums

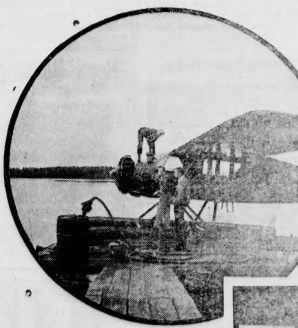

For Sale by  
**W. Harris**

For Printing that has that different touch get it done at the

**Chronicle Office**

Splendid growth has taken place following the rain of last week, 137 inches of moisture being registered in town, while the south east portion of the district reports 170 inches of rain. All grain is showing up nicely with splendid color. Grasshoppers are causing some concern and pison is being distributed.

Mrs. G. L. Dupue entertained at two tables of bridge on Friday, complimentary to Mrs. J. D. Henderson, who was celebrating her birthday. Mrs. Henderson won first prize. The guests present included: Mrs. G. M. Campbell, Miss M. Cameron, Mrs. H. T. Lamont, Mrs. F. Clever, Mrs. J. Walker, Mrs. J. D. Henderson, and Mrs. W. A. McIntyre.

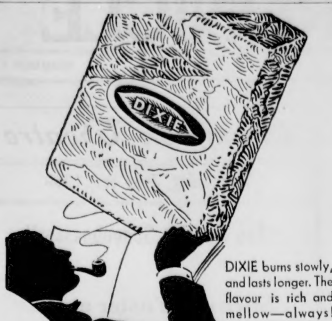

**TREASURE HUNTERS** . . . When prospectors and miners took to the air, mining in Northern Canada began its greatest development. A-1 pilots, dependable aircraft and quality gasoline and oils make northern flying safe. 90 out of every 100 miles flown in Canada are travelled with Imperial Oil products.

**HIGHWAY BEACONS** . . . Wherever you drive you will see the 3 Star Imperial Sign. If it could speak it would say to you, "I mark a place where everything will be done to serve you well." Get the best out of your car with Imperial Gasoline (3-Star or Esso) and Marvelube Motor Oil. While you are in the station find out about Atlas Tires and Atlas Batteries. If you need tires or batteries the Atlas Brand will save you money.

**FARMING IN A BIG WAY** . . . Farmers like Imperial Oil products. One Alberta farmer, who for years has used only Marvelube Oil in his tractor, decided that the eight-year-old machine would need new pistons and cylinder sleeves, but when the machine was taken down it needed only new piston rings. "I honestly think your Marvelube has had a great deal to do with the life and performance of this tractor," he wrote.

## PLUG SMOKING TOBACCO

### Protection Of Wild Life

Not any too soon, an awakened interest in conservation of wild life and particularly game birds and animals, for-bearing animals and fish is noted on both sides of the international boundary. This renaissance, if it can be called such, is most timely in view of the probable early extinction of many important and indeed valuable animals and birds if present wasteful methods are allowed to continue very much longer.

It is true that governments on both sides of the line have entered into agreements for the protection of some of the best known game birds and a good many regulations have been adopted by state and provincial governments for internal protection of a much wider range of both birds and animals of economic value to mankind, but that alone is not sufficient to ensure perpetuation of a great heritage.

True conservation cannot be attained until the great majority of the farmers in the country and sportsmen in the cities, towns and villages constitute themselves unofficial game guardians and use their utmost endeavors to protect harmless wild life both by example and precept.

Many thousands of men in the prairie provinces are already doing this, but maximum results cannot be achieved until practically everybody is imbued with the necessity of conserving one of the greatest gifts of Nature to humanity.

Both in the United States and Canada lovers of the great outdoors have become thoroughly alarmed at the decimation which has taken place in recent years in the flocks of game birds, both those that inhabit the uplands and those which migrate twice a year from one country to the other. A similar apprehension at the rapid diminution of herds and flocks of wild game animals is being frequently voiced, and not without justification, in magazines and newspaper articles both north and south of the 49th parallel.

In the United States, where misplaced governmental activities have resulted in large scale destruction of breeding grounds and natural sanctuaries under the name of rehabilitation, sportsmen and conservationists are moving the advisability of linking up all societies interested in the preservation of wild life in protest to the Federal government and to demand more rigid regulations and restrictions in the interest of fur, feather and hide, not alone for economic reasons, but also from the viewpoint of the necessity for preserving the aesthetic features of the countryside.

It is good to note that this awakening desire to conserve the game birds and animals is being extended to include the song birds, for their importance in the balance of Nature is becoming more and more recognized. There was a time when the destruction of song birds was passed over as a matter of little or no moment, except by a few bird lovers.

This apathy towards the wifid destruction of the feathered songsters of woodland and open prairie is fortunately passing and to-day they are generally regarded as friends of man which should be protected. The majority of them it is now more widely recognized are the foes of insect pests which, if left to multiply without hindrance, would in a very short space of time render the world uninhabitable.

To-day not only are people generally refraining from killing song birds and are restraining young from giving vent to a lust to kill, but are taking more active steps to protect their feathered friends from such natural foes as the crow and the magpie.

In all three provinces there are clubs in operation, formed with the destruction of the crow as the objective of the membership. While differences of opinion as to the menace of the crow have been voiced from time to time, the weight of evidence in the indictment of this bird as an adversary of the insectivorous song birds is overwhelming. One witness for the prosecution, Dr. H. G. Caren of Saskatoon found that 53 per cent. of the crow nestlings examined by him on behalf of the Fish and Game League last year had been fed eggs or young birds taken from their nests and that examination of more than 300 crows shot during the season by members of the league showed that 28 per cent. of the adult crows had eaten birds or eggs in the height of the nesting season.

In the light of this evidence the recently announced sweepstakes competition by the Saskatchewan Government aimed at the destruction of crows and magpies is regarded as a distinct forward movement in the program of preservation of songsters and game birds, and apart from the monetary reward offered for killing banded crows will doubtless be heralded with general approval by Nature lovers.

#### Crossing Wheat With Rye

Experiments in crossing Chinese wheat and rye to obtain a plant combining hardness of rye and milling qualities of wheat are being conducted by the University of Saskatchewan. Plants obtained from the crossing process are claimed to retain some of the qualities of rye. The cross between the two grains is easily made, but results are not always constant.

#### Maybe That Kind

An English motorist who owns one of those small cars which everybody makes jokes about was recounting an experience to a friend. "I had a bit of bad luck coming up from Brighton the other day," he said. "I ran into a trap."

"Is that so?" said his friend. "Any chance in it?"

Red has been made the color of the German post service, all mail boxes, trucks, collecting vehicles, and buses used being painted cadmium red.

A prairie, a fish from South America, just played in the London zoo, looks like horse meat.

#### Mining In Northern Area

### Large Development Program For Northwest Territories This Year

As a result of the geological field program carried out by the Department of Mines last year, great activity in prospecting and mining development will be seen in the Northwest Territories during 1936. The Mining Records of the Department of the Interior at Cameron Bay, on Great Bear Lake, and Fort Smith, which lies just north of the Alberta-Northwest Territories boundary, report that while development work has continued on the older or main properties, preparations are being made by numerous interests for the carrying out of an extensive prospecting program this summer.

Prospecting activities will be chiefly centred in the Yellowknife area, also on the north and south shores of the east arm of Great Slave Lake including the islands. At least five major mining companies will have prospecting parties in this field and indications are that many individual parties will also prospect the area. As part of last year's geological field program 10,000 square miles were examined north of the northwest and east arm of Great Slave Lake, and the geological formations of approximately one-third of this area, which forms the southern part of the Yellowknife Game Preserve, was found to be favorable for prospecting ground for precious metals.

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarier to Go

The liver should secrete two pints of bile into your bowels daily. If this bile is not flowing freely, your bowels will be constipated, your stomach weak, your complexion harsh, and you will feel tired and sluggish. The liver is the most important organ in the body and it is the source of the bile which is necessary for the digestion of food. If the liver is not working properly, the bile will be thick and sticky and will not flow freely. This will cause constipation and other ailments. To keep the liver working properly, you should take a course of Liver Bile. This will help the liver to secrete the bile it needs and will keep the bowels moving freely. You will feel better and your complexion will improve.

#### Prefers Life In Alberta

93-Year-Old Woman Does Not Like California

Although Mrs. H. M. Olsen is 93 years old, she would rather live in her wheat farm near High River in Alberta, operated by one of her sons, than live in the fruit-growing lands of Arizona where she once resided, or with her two sons now living in California.

"Grandma" Olsen showed little patience for people living in fruitlands. "What is fruit?" she asked. "It comes and goes, it doesn't last. It's bread that is lasting. What is wheat to feed the world. I have been given good land in California. It grows wheat."

Mrs. Olsen left her native Denmark in 1858, crossed to Salt Lake City immediately after her arrival in New York, and soon after was married to Mr. Olsen. She came to Alberta in 1905.

"I walked every step of the 1,100 miles between Omaha, Nebraska, and Salt Lake City behind a covered wagon," she declared.

#### Must Be Almost Perfect

Record Of American Cow Something To Marvel At

Honor is being paid to an American cow which has produced 38,606 pounds of milk containing 1,402 pounds of butterfat in one year. Figures have been compiled to show that this is equal to the milk consumption of more than 100 people one day every day of the year. The cow, named "Milkmaid," is owned by Mr. J. H. C. of California. She has produced enough milk and cream to make 88,880 ice cream cones, and enough butter for eight families for a year. She has also produced enough milk to provide them with milk for a year. This is a record for a cow in the United States.

Very interesting. This record will be cited as a mark for other cows to shoot at: the sort of cows that every dairy farmer should aspire to have in his herd. Nineteen tons of milk containing more than 3.8 per cent. butterfat! We ask it cooperation!—Stratford Beacon-Herald.

#### Many Tourists Expected

Peak Of 1929 Looked For By Travel

Tourist travel into Canada this year would reach the peak established in 1929, D. Lee Dolan, director of the Canadian Travel Bureau, predicted at Ottawa in an address at a banquet of the northern division of the Ancient Mystic Order of Sanatians. "To date we have received practically twice as many inquiries as we had at this time last year," he said. "Most of the inquiries are from United States citizens wishing to visit our country."

#### New Lifeboat Invented

Can Be Sealed And Has Device For Renewing Air Supply

Victims of future marine catastrophes will find themselves comfortably saved with a sealed, non-sinkable lifeboat, if the invention of a reputable Catalan engineer proves practical.

The new lifeboat that cannot sink is capable of seating 40 to 50 persons. It can be launched from a sinking ship under all weather conditions and in time that has been reported to remove the canvas from an ordinary lifeboat.

The inventor is Cosme Salomo Vila, the engineer who originated the life-saving buoys for occupants of submarines. This invention was demonstrated in Madrid before a group of experts, including officials of the Spanish ministry of marine. It is said that naval experts consider adopting the submarine buoy as part of the general equipment of submarines.

Salomo Vila's latest invention, the non-sinkable lifeboat, is a launch 25 to 30 feet in length and capable of being closed so perfectly that neither air nor water can enter. The lifeboat is equipped with a motor and a special device for renewing the supply of fresh air.

On the theory for lowering the lifeboat after it has been occupied has been perfected by the same inventor. According to Salomo Vila and to witnesses who have seen tests made off the coast and near the town of Maturo, the lifeboat can be lowered in all kinds of weather and it is absolutely non-sinkable. These reports add that the interior of the vessel remained perfectly dry during violent storms and that the air was renewed without admitting any water.

#### Takes Over New Post

Earl Of Willington Appointed Warden Of Cinque Ports

The Earl of Willington has been appointed Warden of Cinque Ports, a position of considerable dignity, carrying comfortable emoluments and residence at Dover Castle.

Lord Willington returned from India after five years as viceroy and was announced the king had conferred a Marquessate on him.

As Warden of Cinque Ports, the former governor-general of Canada succeeds the late Marquess of Reading, himself a former viceroy of India.

The Cinque Ports—originally Hastings, Romney, Hythe, Dover and Sandwich but now including other "ancient towns" of the south coast of England—are a league enjoying a number of ancient privileges.

#### Indian Building Divided

Lightning recently split a two-story wooden building into two parts from roof to cellar on the Indian reservation at Coughnawaga, N. C. Reporting the strange accident, Police Chief John Jocks said that the damage was serious, but that no one was occupying the house at the time.

Last year 832,011 books and newspapers and 8,000 pieces of Braille music were produced by the National Institute for the Blind in Britain.

## Need Building-Up?

WHEN you feel out-of-sorts, when you're no appetite, or stomach gives trouble with gas or dyspepsia, try Dr. Pierce's Golden Medical Discovery. You want to get on healthy feet—this is the tonic for you. Dr. Wm. D. Willits, of 212 E. 12th St., St. Paul, Minn., writes: "I have used your medicine for years and it has done me much good. I have been able to eat and sleep and I feel better than I have for years."

Dr. Wm. D. Willits, of 212 E. 12th St., St. Paul, Minn., writes: "I have used your medicine for years and it has done me much good. I have been able to eat and sleep and I feel better than I have for years."

#### Tribute To Famous Poet

English Earl Showed His Appreciation Of Spenser's Work

When Spenser had completed his most famous poem, "Faerie Queene," he took it to the Earl of Southampton, great patron of the poets of that day. The Earl received the manuscript, read a few pages, and then ordered a servant to deliver 420 to be the waiting order.

Reckling on, he cried in rapture, "Carry the man another 420."

Proceeding still further into the fascinating work, he ordered still another 420 be delivered. But at length he lost all patience and exclaimed: "Go turn that fellow out of the house. If I read further he shall be ruined!"—Christian Science Monitor.

#### SELECTED RECIPES

##### CHEESE BRANS

- 1 1/2 cups Quaker Natural Bran
- 1 cup Quaker Flour
- 1/2 teaspoon baking powder
- 1/2 teaspoon salt
- 6 tablespoons grated cheese
- 2 tablespoons shortening
- 1/2 cup boiling water
- 1 egg

Method: Mix dry ingredients thoroughly. Stir in grated cheese, melt shortening in the boiling water and add. Then add well-beaten egg. Roll very thin, using bran in place of flour. Sprinkle with salt, cut with cookie cutter. Bake in slow oven (not over 300 degrees). Delicious with a cup of tea or as an accompaniment for salad.

#### Commander Of East Indies

Vice-Alexander Sir Alexander Ramsay Receives Appointment

Vice-Alexander Sir Alexander Ramsay has been appointed commander-in-chief of the East Indies station of the royal navy.

Sir Alexander is the husband of Lady Patricia Ramsay, daughter of the Duke of Connaught and honorary colonel-in-chief of Princess Patricia's Canadian Light Infantry. While in Canada when her father was governor-general Lady Patricia was known as Princess Patricia, but on her marriage in 1919 she was authorized by royal warrant to relinquish the title of princess of Great Britain and Ireland.

Ancient English House Putting his domestic clock back 141 years, A. E. Richardson, professor of architecture at London University, is living in a Georgian house at Amplett with nothing more modern in it than in 1785.

Seeking new uses for French resinous products, France is trying resin as a road, surfacing material.

In 1830, approximately 1,400 mail coaches left London daily.

#### Thieves Return Stolen Goods

To Keep Police Of Roumanian Town From Losing Jobs

The threat of the Roumanian government to fire the whole police force of the town of Buzau, Roumania, for incapacity broke the hearts of a dangerous gang of burglars. They sent by post to the chief of police a big parcel with stolen goods, accompanied by a letter stating that "We, the thieves of Buzau, do not want the poor police to lose their jobs and salaries consequently transfer our activities to other parts of the country. Our principle is 'live and let live.'"

The complaint of a member of parliament, M. Mocoanu, whose elegant fur coat was stolen in Buzau, caused the ministry of interior to announce that if the coat was not found within 24 hours, the whole police force, including the chief, would be dismissed. Next morning, a huge parcel containing another police's fur coat of the minister arrived at other headquarters.

#### Building Larger Zeppelin

Work has begun at Friedrichshafen on another Zeppelin—bigger and faster than the Hindenburg, which flew across the South Atlantic with 50 passengers and a crew of 40. The new Zeppelin will be almost as long as the ocean liner Queen Mary, will carry 80 passengers, and will average nearly 100 m.p.h. on long journeys.

## The Champion Chronicle

L. A. STARCK  
Editor and Publisher

Thursday, May 28, 1936

The Board of Trade of Vulcan has sent invitations to Champion for a representation from here to attend their meeting on Thursday evening when the hard surfaced highway will be discussed. They are asking other towns along the line to be represented and cooperate.

Mr. and Mrs. G. K. McLean, Miss Elsie McLean, Miss Edna McPherson, Vulcan, Joe McNaughton and Don Campbell were visitors at Waterton Lakes National Park over the week end.

Nominations for councillor for Division 3, the vacancy caused by the resignation of Harry Smith, will be received at the Municipal office on Saturday, May 30th.

Recent word received from Dr. H. N. Head who is enroute to the Arctic regions to practice dentistry during the summer months, stated that he was now at a small town on Lake Athabasca and would be there for a short period of time before continuing his journey north.

The interior of the Community hall has been completely redecorated, with Bert Gill in charge. The addition of electrical fixtures has all added greatly to the interior of the building and following the clean up program there is no doubt but that there will be a decided improvement in the appearance of the building.

## Local &amp; General

Fred Clever has had his car painted.

Miss A. Irwin was a week end visitor in Vulcan.

Miss A. McCullough spent the holiday in Calgary.

Eva Latiff spent the holidays in Stavelly visiting relatives.

A new suit for the young man, pure wool fabrics, \$9.75 a suit at Campbell's.

Mrs. Henry Leback and Alex Goodman spent a few days at Beiseker.

Mr. and Mrs. E. B. Siler are going to Kalispel, Montana for a few days.

Mr. and Mrs. G. A. Manhard of Red Deer arrived in town on Wednesday.

Mrs. Neil McRae and Mrs. Fields are both seriously ill according to late reports.

Mr. and Mrs. J. Anderson and family and Mrs. C. Williamson were Nanton visitors Sunday.

M. G. Sandford was seriously ill on Friday evening, following an attack of acute indigestion.

Seed Spuds, just a few bushels left. Extra Special Prices to clean them up at Campbell's.

Miss Haddy James, Miss Molly Bastin and Miss Barbara Bastin were week end visitors in Calgary.

Mrs. Bastin, who has been visiting in Calgary for the past month, returned to Champion on Monday.

The Harmony Blue Bird softball team will go to Barons on Sunday to play the High school team.

M. G. Sandford was fortunate in capturing two second prizes with his race horses at Cowley on the 21th.

Urgently Needed, will the party who borrowed a bed pan from Mrs. Fred Watts please return same, and oblige.

Last call for seed corn, Improved Spaw and Falcater, Balk garden seeds and Dutch sets at Campbell's.

Miss Valerie Elford will be in Calgary this week making preparations to start a school of dancing at that point.

F. G. Baunmont, Barrister of Carmarney will be at the Chronicle office every Tuesday morning.

Mrs. V. Crawford of Medicine Hat is staying a week with Mrs. W. Harris, they have not seen each other for a number of years.

Fred Smith, formerly of Champion, has accepted a position with the Public Petroleum Corp. Ltd. at Cardston.

Mr. and Mrs. W. S. Ryan of Warner were Champion visitors on Saturday. Mr. Ryan reports crop conditions in the south splendid.

OFEO, the new Egg Preservative, Dip, dry and store in a box. Will keep Fresh for 12 months, at Campbell's.

Among Cowley visitors on Monday were Miss Flo, Gilt, Miss Ada Williamson, Max Caldwell, Bud Sandford, Mrs. Berger and I. Gaudin.

Mr. and Mrs. J. D. Henderson and Stuart accompanied by Miss M. Cameron spent the 24th at Glendon visiting at the home of Mr. and Mrs. W. Cook.

Ray Johnson, who was a former Champion resident, has accepted a position on the office staff of the Public Petroleum Corp. Ltd. of Lethbridge.

Don't forget the Cake Sale on Saturday, May 30. In Mr. Alexander's office sponsored by Mrs. Campbell's group of the Ladies' Aid. To be sure of your favorite cake, phone your order to Mrs. Lamont or Mrs. Henderson

Mr. and Mrs. Harvey C. Jopling and family and Mrs. Woodhull spent Sunday at Cardston, guests at the home of Mr. and Mrs. W. G. Laidlaw.

Miss Molly Bastin expects to leave Champion June 30th, on the teacher's excursion, for London, England, where she will visit relatives during the summer vacation.

A large number from here were in Vulcan Monday to see the sports and games. Champion won against Stavelly 6 to 10, and lost out to Vulcan 6 to 7. Both games were good.

B. M. Roberts, accompanied by Miss Joey Ellis and Mrs. H. N. Head, all of Calgary, renewed acquaintances in Champion on Monday, having spent the week end at Warner, guests at the home of Mr. and Mrs. W. S. Ryan.

Joe McNaughton who left recently for Spokane was forced to return to Champion due to trouble at the line.

Mrs. E. H. Freeze is making favorable progress following an operation for appendicitis in the Holy Cross hospital, Calgary on Tuesday of last week.

Right Now! Cabbage, Cauliflower, Tomato plants, also Parsnips, Potatoes, Aspers, etc. at Campbell's.

Mrs. R. G. Williams of Calgary entertained twenty-five guests Monday of last week in compliment to Mrs. J. M. Scott, who celebrated her 80th birthday on Monday. Assisting in serving were Mrs. Scott's daughter in law, Mrs. J. Fred Scott, Mrs. H. W. Hornor, Mrs. Bower Farnard and Miss Betty Williams. Mrs. Scott formerly resided in Champion with her daughter, Mrs. W. C. Hoskins.

## Thirty-Six Million in One Hand

Eight cheques totalling in value no less a sum than \$36,755,000 changed hands on May 7, when the Canadian Pacific Railway paid off the balance in principal and interest due of the sixty million dollar loan contracted in 1922, and guaranteed by the Dominion Government at that time. It will be remembered that in June of that year the Canadian Pacific had to raise the sixty millions to meet maturing obligations. The money markets of the world were then feeling the full effect of the financial crisis and were closed with the result that it was not possible for a Canadian institution to borrow so large a sum on advantageous terms. The Canadian banks therefore agreed to combine in making this loan, but as an added measure of security to the banks the Dominion Government agreed to guarantee repayment of the loan both as to principal and interest. The loan was to mature in five years, or might be paid off by the Canadian Pacific prior thereto on notice to be given to the banks. It has been paid off in full in less than three years, and the obligation of the Government to guarantee payment came to an end automatically the moment the cheques issued today were presented. Furthermore, since all interest and other charges have been paid by the Company, the entire transaction has not cost the Dominion Government one cent. The loan originally carried an interest rate of five per cent, but later this was reduced to four and a half per cent. New loans raised by the Company to pay this off were made at a still lower rate of interest.
